SUBJECT: Meeting of the Alternative Energy Group,
Monday November 15, 1982 at 4:00 p.m.

The next meeting of the Alternative Energy Group will be held Monday November 15, 1982, at 4 p.m. in the "D" Conference Room on the seventh floor of the State Department.

The purpose of the meeting is to review the draft report on international measures prepared for the Group by the staff working group. The draft report is attached, under cover of a farewell memorandum from Jim Buckley. The working group was able to agree on a full text of the report, with the exception of the recommendation on the limitation of Soviet gas purchases. On this point, the last paragraph of page 2, the Group has suggested two alternative formulations, presented within brackets.

The annex to the Group's report, prepared by the CIA, has not been reviewed by the working group. The Alternative Energy Group may also wish to discuss the form and context of this annex.

Attendance at this meeting is limited to principal plus one. Please confirm plans for attendance with Kaarn Weaver of my office, phone 632-2123.

Attachment:

As stated.
